About the HSK tests

What is HSK?

The Chinese Proficiency Test (HSK) is an international standardized test for Chinese language proficiency administered by CTI Co., Ltd. (CTI), a specialized international Chinese language education and testing service company. HSK assesses Chinese learners' abilities to use Chinese as a second language in their daily, academic, and professional lives through a standardized examination and evaluation with a uniform grading and scoring system.

Writing	Section 1	5	10	⌚ 15
	Section 2	5		
Total		80	About 85	

Test Start Time(All local times): **13:30**.

The HSK (Level 3) score report provides four scores: Listening, Reading, Writing, and Total. Achieving a full score entails earning 300 points, while a cumulative score of 180 or above qualifies as a passing mark. The HSK scores are valid for two years, starting from the day of the exam.
